POSTDOCTORAL POSITION

The Director of Data and Design Nest, Dr. Chaudhry, is seeking two Postdoctoral Researchers. One will work in the application of IoT and AI in Agriculture/Health/Smart Cities, and the other in developing augmented reality solutions for health care. Postdoc researchers are invited to define their own research agenda and demonstrate the ability to drive forward an effective program of research. Successful candidates will have PhDs and well-established research track record, as demonstrated by journal publications and conference papers, as well as participation on program committees, editorial boards, and advisory panels. The selected fellows will receive competitive salary. The initial appointment will be for a period of one-year and may be extended for another 6 months depending on the availability of funds.

To be considered for this position, email a cover letter along with your research proposal and CV to beenish.chaudhry@louisiana.edu. The positions will stay open until suitable candidates have been identified.
